

Numan Khalil

Full Stack Engineer

React · Next.js · Node.js · SaaS & MVP delivery

I build and ship SaaS platforms and MVPs end to end — from Figma to production on AWS and Vercel. Over 4+ years I have delivered client products across HealthTech, events, marketplaces and EdTech: multi-role dashboards, Stripe payments, real-time messaging and search over 30,000+ records. Most recently I architected Murboo from UI to production. Clients hire me when they need a founding-engineer mindset: architecture decisions made early, performance treated as a feature, and clear communication throughout.

FLAGSHIP PROJECTS

live in production

Murboo

EVENTS MARKETPLACE / SAAS PLATFORM

Full-stack Engineer & Architect · Murboo

Professional network and marketplace for the meetings and events industry, where planners discover, compare and review venues, suppliers and on-site contractors.

- Architected end to end: Next.js web app, REST API and admin panel in one monorepo
- Role-based onboarding and profiles for planners, partner companies and contractors
- Partner directory with city and category search, comparison, reviews and verified badges
- PostgreSQL and Redis API with refresh-token auth, Google sign-in and S3 media storage

Next.js · TypeScript · Tailwind CSS · Redux Toolkit · Node.js · PostgreSQL · Redis · AWS S3 · Sentry · Cloudflare

InvoNexus

EDTECH / TALENT PLATFORM

Full-stack Engineer · InvoNexus

Platform for Pakistan's tech ecosystem that connects students, mentors, universities and companies through bootcamps, workshops, mentorship, events and a talent pool.

- Bootcamp and workshop catalogues with seat reservations, early-bird pricing and certificates
- Mentor directory filtered by topic, experience and format, with paid 1:1 session booking
- Events hub with a calendar, city and topic filters, registrations and past-event galleries
- Talent pool job board and application forms, managed from an admin panel

Next.js · TypeScript · Tailwind CSS · Vercel Blob · Cloudflare · Structured data

ISO Powersports

E-COMMERCE / SAAS MARKETPLACE

Lead Frontend Developer · ISO Powersports

Multi-vendor marketplace for off-road vehicle parts with a scalable architecture supporting customer, store and super-admin dashboards, advanced search, inventory management, and secure transactions.

- Algolia-powered fitment search filtering by make, model and year across 30,000+ indexed products
- Stripe split-vendor payments with Apple Pay and Google Pay support
- Socket.io realtime inventory sync between store dashboards and customers
- ApexCharts sales and performance analytics in a Vite-based admin panel

Next.js · TypeScript · Tailwind CSS · shadcn/ui · Stripe · Algolia · TanStack Table · Socket.io · ApexCharts · Google Maps API

WHAT I TAKE ON

SaaS Platform Development

Multi-role dashboards, subscription billing, realtime features — from architecture to production deployment.

Startup MVP Delivery

Founder-facing builds that ship fast without locking you into decisions you will regret at scale.

Frontend Architecture & Rescue

Design systems, state management and performance work on existing codebases that have outgrown their structure.

Figma to Production

Pixel-accurate, responsive, accessible implementation with motion — Framer Motion, GSAP, Three.js.

CLIENT FEEDBACK

> *"Numan is highly recommended for web app development, not only for me but also for my clients. We work with him regularly and highly endorse his services!"*
>
> **CEO, Garcia UX Agency**

> *"I had the pleasure of working with Numan on a complete website upgrade project, and I couldn't be happier with the results. From the very beginning, Numan showed a deep understanding of modern web development."*
>
> **Owner, Code Ninjas Los Alamitos**

> *"Excellent and professional web developer. Great communication and very responsive. Thank you for all your help Numan."*
>
> **CEO, Hayes Media**
